MEMORANDUM FOR: Deputy Director for Administration  
SUBJECT : Polygraph Program

1. Per our discussion, I am forwarding a memorandum regarding the reactivation of the polygraph portion of the Reinvestigation Program. My suggestion is that we go ahead and coordinate this paper but not act on it from a final standpoint until after some of these investigations and inquiries are behind us. I think I would like to have on the record for the investigators to see, our concern on security and the approach we are taking in this particular case.

2. I have talked about this to the DDO and the DDI. The DDO endorses this concept specifically, and the DDI while endorsing this, feels that we should have a full polygraph with the reinvestigation. I have not discussed this with the DD/S&T.

3. At any rate, I will be guided by your desires on this matter.

  
Charles W. Kane  
Director of Security
